

FrieslandCampina is one of the world's five largest dairy companies. FrieslandCampina supplies consumer products such as dairy-based beverages, infant & toddler nutrition, cheese and desserts in many European countries and in Asia and Africa. Products such as cream and butter are also supplied to professional customers including bakeries and food-service companies. FrieslandCampina also produces ingredients and half-finished products for manufacturers of infant & toddler nutrition, the food industry and the pharmaceutical sector around the world.

Sensory Developer

FrieslandCampina Development Centre AMEA is looking to hire for the position of a Sensory Developer. This position will be based in our Global Development Centre in Singapore. As a sensory developer, you are a key part in analyzing and interpreting sensory and consumer data to ensure our dairy products are at the forefront of consumer requirements and deliver an outstanding experience (**at least 3 years' experience**).

Your Role

- Sensory studies management & promote mind-set in view of business needs.
- Critically look into project objective and deliverables, then recommend the most appropriate sensory/ consumer test method.
- Analyze sensory and consumer test data to address research questions.
- Report and present consumer and sensory result and give clear recommendation to R&D/project team.
- Link sensory data to consumer test results or product specific data so as to identify strengths & weaknesses of our products and recommend improvement(s).
- Maintaining database of research data and findings.
- Build and share knowledge: Contribute in improving sensory and consumer methods
- Share knowledge and ways of working, helping to build capability of other team members.

About Us

FrieslandCampina is one of the world's five largest dairy companies. FrieslandCampina supplies consumer products such as dairy-based beverages, infant & toddler nutrition, cheese and desserts in many European countries and in Asia and Africa. Products such as cream and butter are also supplied to professional customers including bakeries and food-service companies. FrieslandCampina also produces ingredients and half-finished products for manufacturers of infant & toddler nutrition, the food industry and the pharmaceutical sector around the world.

The Global Sensory Development team leads and conducts valuable sensory and consumer research in a multi-disciplinary business environment, delivering excellent guidance to projects throughout the business. As part of this team you will support the development and improvement of new and existing FrieslandCampina products, as well as contribute to the constant improvement of our sensory and consumer best practices.

Our Desired Profile

- A relevant bachelors or master degree in relevant field.
- Experience (at least 3 years) in sensory (and preferably consumer) science or research.
- Experience in statistics and data analysis (experience with XLStat and FIZZ software will be a plus)
- A proactive independent person who is able to complete projects with minimal supervision.
- Strong all-round communicator and influencer, with a friendly, flexible approach.
- Good team player.
- Target-oriented with respect for quality and timing.
- Creative and innovative with a sense of urgency and passion.
- Fluent in English (both verbal and written).
